IMPORTANT: Read the entire instruction before starting the assembly. Strictly follow all the instructions provided in this manual and carry out all of the stages of the installation process in the specified order. Failure to comply with these rules may lead to incorrect fitting of the decorative laths and the occurrence of visual defects. The warranty certificate is void if it is found that damage has been caused by incorrect installation. The base on which the product is to be installed must be flat and without significant differences in level. The product must be attached to the base. Note: Use lube for all screws to prevent them from breaking. **Make sure that the greenhouse pallet cannot tip over and cause accidents. Make sure that the ground where you put the pallet is in level. Installing two ground spikes to the pallet will prevent it from tipping. Do not remove all the wooden rules inside the pallet. Only remove the ones that are necessary to access the part you need.**

VIKTIGT: Läs hela instruktionen innan du påbörjar monteringen. Följ noggrant alla instruktioner i denna manual och genomför alla steg i installationsprocessen i den angivna ordningen. Underlåtenhet att följa dessa regler kan leda till felaktig montering av de dekorativa listerna och orsaka visuella defekter. Garantibeviset är ogiltigt om det visar sig att skadan orsakats av felaktig installation. Basen som produkten ska installeras på måste vara plan och utan betydande nivåskillnader. Produkten måste fästas i basen. Notera: Använd smörjmedel för alla skruvar för att förhindra att de går sönder. **Se till att växthusets pall inte kan välta och orsaka olyckor. Se till att marken där du placerar pallen är i nivå. Att installera två markstråvor i pallen förhindrar att den tippar. Ta inte bort alla träreglar inuti pallen. Ta bara bort de som är nödvändiga för att komma åt den del du behöver.**

VIKTIG: Les hele instruksjonen før du starter monteringen. Følg nøye alle instruksjonene i denne manualen og utfør alle trinnene i installasjonsprosessen i den angitte rekkefølgen. Unnlattelse av å følge disse reglene kan føre til feilmontering av de dekorative listene og forekomsten av visuelle defekter. Garantibeviset er ugyldig hvis det viser seg at skader er forårsaket av feil installasjon. Grunnlaget som produktet skal installeres på, må være flatt og uten vesentlige nivåforskjeller. Produktet må festes til basen. Merk: Bruk smøremiddel på alle skruer for å unngå at de knekker. **Sørg for at veksthusets pall ikke kan velte og forårsake ulykker. Sørg for at bakken der du plasserer pallen, er i vater. Å installere to jordspiker i pallen forhindrer at den velter. Ikke fjern alle trerammene inne i pallen. Fjern kun de som er nødvendige for å få tilgang til delen du trenger.**

VIGTIGT: Læs hele vejledningen, før du påbegynder samlingen. Følg nøje alle instruktioner i denne manual, og udfør alle trin i installationsprocessen i den angivne rækkefølge. Manglende overholdelse af disse regler kan føre til forkert montering af de dekorative lister og forekomsten af visuelle defekter. Garantibeviset er ugyldigt, hvis det viser sig, at skaden skyldes forkert installation. Basen, som produktet skal installeres på, skal være flad og uden væsentlige niveauforskelle. Produktet skal fastgøres til basen. Bemærk: Brug smøremiddel på alle skruer for at forhindre, at de knækker. **Sørg for, at drivhuspallen ikke kan vælte og forårsage ulykker. Sørg for, at jorden, hvor du placerer pallen, er i niveau. Installation af to jordspyd i pallen forhindrer, at den vælter. Fjern ikke alle trærammerne inde i pallen. Fjern kun de, der er nødvendige for at få adgang til den del, du har brug for.**

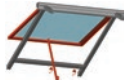

BELANGRIJK: Lees de gehele instructie voordat u begint met de montage. Volg strikt alle instructies in deze handleiding en voer alle fasen van het installatieproces uit in de aangegeven volgorde. Het niet naleven van deze regels kan leiden tot een verkeerde montage van de decoratieve latten en het optreden van visuele gebreken. Het garantiebewijs is ongeldig als blijkt dat schade is veroorzaakt door onjuiste installatie. De ondergrond waarop het product moet worden geïnstalleerd, moet vlak zijn en zonder significante niveaunderschillen. Het product moet aan de ondergrond worden bevestigd. Opmerking: Gebruik smeermiddel voor alle schroeven om te voorkomen dat ze breken. **Zorg ervoor dat de pallet van de kas niet kan omvallen en ongevallen kan veroorzaken. Zorg ervoor dat de grond waarop u de pallet plaatst, waterpas is. Het installeren van twee grondpennen op de pallet voorkomt dat deze omvalt. Verwijder niet alle houten regels in de pallet. Verwijder alleen de regels die nodig zijn om toegang te krijgen tot het deel dat u nodig hebt.**

WICHTIG: Lesen Sie die gesamte Anleitung, bevor Sie mit dem Zusammenbau beginnen. Befolgen Sie genau alle Anweisungen in diesem Handbuch und führen Sie alle Phasen des Installationsprozesses in der angegebenen Reihenfolge durch. Die Nichteinhaltung dieser Regeln kann zu einer falschen Montage der Zierleisten und dem Auftreten von optischen Mängeln führen. Die Garantie erlischt, wenn festgestellt wird, dass der Schaden durch unsachgemäße Installation verursacht wurde. Der Untergrund, auf dem das Produkt installiert werden soll, muss eben und ohne nennenswerte Höhenunterschiede sein. Das Produkt muss an der Basis befestigt werden. Hinweis: Verwenden Sie Schmiermittel für alle Schrauben, um ein Brechen zu verhindern. **Stellen Sie sicher, dass die Paletten des Gewächshauses nicht umkippen und Unfälle verursachen können. Achten Sie darauf, dass der Boden, auf dem Sie die Palette platzieren, eben ist. Das Installieren von zwei Bodenspiessen an der Palette verhindert, dass sie umkippt. Entfernen Sie nicht alle Holzleisten in der Palette. Entfernen Sie nur die, die notwendig sind, um an das benötigte Teil zu gelangen.**

TÄRKEÄÄ: Lue koko ohje ennen asennuksen aloittamista. Noudata tarkasti kaikkia tämän käsikirjan ohjeita ja suorita asennusprosessin kaikki vaiheet ilmoitetussa järjestyksessä. Näiden sääntöjen noudattamatta jättäminen voi johtaa koristeellisten listojen virheelliseen asennukseen ja visuaalisten vikojen esiintymiseen. Takuutodistus mitätöityy, jos havaitaan, että vaurio on aiheutunut virheellisestä asennuksesta. Tuotteen asennusalustan on oltava tasainen ja ilman merkittäviä korkeuseroja. Tuote on kiinnitettävä alustaan. Huomautus: Käytä voiteluainetta kaikissa ruuveissa estääksesi niiden rikkoutumisen. **Varmista, että kasvihuoneen lava ei voi kaatua ja aiheuttaa onnettomuuksia. Varmista, että maaperä, johon asetat lavan, on tasainen. Kahden maakiilan asentaminen lavaan estää sen kaatumisen. Älä poista kaikkia lavan sisällä olevia puulistoja. Poista vain ne, jotka ovat välttämättömiä tarvittavan osan saamiseksi.**
